Vulnerability Type

☐ SQL Injection

☐ XSS

Bug Description

FI: Empty finalizer should be deleted (FI\_EMPTY)

Empty **finalize()** methods are useless, so they should be deleted.

Fixed

Bug Description

EQ: Equals checks for incompatible operand (EQ\_CHECK)

This equals method is checking to see if the argument is some incompatible type (i.e., a class that is neither a supertype nor subtype of the class that defines the equals method).
